Edmund Rice Community

Where does this idea come from?

A new **Edmund Rice Community** of Christian Brothers and young adults will begin in Perth in April 2006.

Already in other parts of Australia and around the world there is a growing number of Edmund Rice Communities, where Brothers and “others” live together.

Br Terry Casey and Br Bernard White are keen to open their house to make a new community home – Brothers and young adults living together. They are looking to share their love of life with others who love life too.

As people who are passionate about finding a place in their life for justice, peace, reflection and connections with others, their home has always been an open community, welcoming of others guests and visitors. However this is really going the next step! Terry and Bernard are looking forward to a different way of living in 2006 – the **Edmund Rice Community!**

Members of the community will still live their “usual lives” e.g. work or study. They will also regularly make time and space in their lives for activities and initiatives with the rest of their **‘Edmund Rice Community’**.

If you are 18-30 years of age and are looking for a genuine and enriching experience of community living, as well as a way to integrate your values into your way of life, then this could be just the thing for you.

There will be two information nights in Feb/Mar 2006 where anyone interested in finding out more about the new **Edmund Rice Community** can come along and hear all about it. Interested young adults can then apply to join the community in early March with new members moving in mid April and staying until mid December.
